

PROPERTY ADDRESSING

METHODOLOGY :

- EQUAL INTERVAL METHOD
- 5.28 FEET PER ADDRESS UNIT
- POINT OF BEGINNING
- EVEN / ODD CONVENTION

- Each Address Unit equals 5.28 feet
- Each road begins with Zero (0)
- 5.28' = 1/1000 of a mile
- Even numbers on right, odd on left
- Relates easily to auto odometer
- Allows for future growth
- Allows sequential addresses in dense areas

Example:

House number 1000 is exactly 1 mile from POB
(1000 X 5.28 = 5,280 ft = 1 mile)
