

IVANHOE WATER SYSTEM UPDATE

July 24, 2024

The Ivanhoe Water System is a project to design and construct a new public water system for the Ivanhoe population and surrounding areas of Sampson County. The project will create a water distribution system to connect the residents within the disadvantaged, underserved community of Ivanhoe (who have expressed the desire to connect to a public water system) to Sampson County's water supply. The new infrastructure will include:

- Water main extensions to connect residences within the Ivanhoe Area to the proposed system
- Residential water service meters and connections (No tap fee for customers)
- 1 Booster pump station

Engineering Status Update:

Design is Complete and is currently pending approval from NCDOT and NCDEQ Division of Water Infrastructure

Bid and Design Package Submittal for Permitting

Submitted Dec. 1, 2023

NCDOT Encroachment Agreement
NCDOT Driveway Permit
NCDEQ Public Water Supply Permit
NCDEQ Division of Water Infrastructure Approval
NCDEQ Erosion and Sediment Control Permit

State Required Approvals Still Needed:

NCDOT Encroachment & NCDEQ Division of Water Infrastructure

Future Schedule Update

Advertise project for bid	30 days following receipt of outstanding permits
Bid Opening	30 days after advertisement
Receive Bids, Receive Authority to Award	90 days after bid opening
Execute Construction Contracts	30 days after Authority to Award
Construction Complete	December 2026
